- OOPS Concept

PROJECTS

Crackers Management System [🔗](#) | [HTML](#), [CSS](#), [Javascript](#)

07-2025

- The Diwali Crackers Management System is a web-based application designed to efficiently manage the sale and inventory of crackers during the festive season. This system helps shop owners, customers, and administrators handle various operations such as product management, order tracking, billing, and stock monitoring in a simple and automated way.

Library Management System [🔗](#) | [HTML](#), [CSS](#), [SQL](#), [Javascript](#)

09-2025

- The Library Management System is a software application designed to simplify and automate the day-to-day operations of a library. It helps librarians manage books, members, issue/return records, and other administrative tasks efficiently. This system replaces the traditional manual methods with a digital solution, improving accuracy, speed, and accessibility.

INTERNSHIP

Codveda Technologies

[Python Development](#)

09-2025

Bangalore, India

- As a Python Developer Intern, your role focuses on learning and contributing to software development projects using the Python programming language. You will work on writing, testing, and debugging Python code, collaborating with the development team, and supporting the design of efficient backend systems or automation tools.

TECHNICAL SKILLS

Languages: Python, SQL, JavaScript, CSS, HTML, Django, Flask, GenAI

Developer Tools: VS Code, IDLE(Python), MySQL, Django ORM, Google colab

Technologies/Frameworks: Git, GitHub, ReactJS, NodeJS, Docker

EXTRACURRICULAR

NSS / SEMINAR PARTICIPATION

10-2024

[Role : Volunteer / Participant](#)

salem

- Actively participated in NSS (National Service Scheme) and various technical seminars organized at college. Involved in community service programs, social awareness campaigns, and technical events that improved my leadership, teamwork, and communication skills while enhancing my knowledge of emerging technologies like Python, SQL, and web development.
